

We are declaring an energetic design for the entire Web of Life in Earth Experience

The core at this design are values set by the Grassroots Women's Congress. The Founding Mothers determined what values would manifest forms of Benefit and Good: Physical, Mental, Emotional, Spiritual.

The question is "Does this value reflect our Divine Nature of Wholeness?"

### Reality Statements for April 2019

We began at the center, added values for children, and are adding secured from Toxins.

- The Bio-Energy fields of Earth are secured within harmonics from our Divine Home of Wholeness.
- Cultural fields impact our children with harmonics of Love, Safety, Balance, Health and Respect.
- Humanity and the entire Web of Life vibrates in the frequencies of Sacred Sovereignty.
