

We are declaring an energetic design for the entire Web of Life in Earth Experience

The core at this design are values set by the Grassroots Women's Congress. The Founding Mothers determined what values would manifest forms of Benefit and Good: Physical, Mental, Emotional, Spiritual.

The question is "Does this value reflect our Divine Nature of Wholeness?"

### Reality Statements for June 2019

We began at the center, added values for children, and are adding the Presence of the Female Mission.

- Grandmothers gather around the women and children, sharing experiential wisdom.
- Communities are growing in the strength of the Grandmothers and the Females standing with the voice of authority.
