# Shiddea Mission Protocol

## Introduction

We come from an incredible Home which offers all potentials of Good and Benefit. And yet, here we are, on the Earth in times that would argue that human beings are the ‘cancer’ on this planet and the idea of humans as Good is fanciful.

This project is based on the concept that we come from Magnificence, from Creativity, from Brilliance, and that we are Beyond Enough for what is facing us. It also is based on the concept that there is a purpose for this physical planet, a plan that came from our brilliance. And, that a majority of souls on earth today volunteered to be here as participants in that plan.

The plan? To identify and remove all agendas of domination, control, usury, violence, deceit, and death back to their home of origin. This removal allows the restoration of our entire Life Force Field to our original harmonics of All Good and Benefit. The mission's purpose is to stop the march into disease and death. Thus, we can experience, either directly or vicariously, the many aspects of our original Home.

There is a portion of that greater Earth Mission called the Shiddea Mission. This protocol is for those in that portion of mission.

## What We Offer

### In this new way of working together,

- Clear Intentions
- Leaderful
- Congruency
- Integrity
- Emerging

Clear intentions: the intention for this work is to powerfully work with teams in the spiritual worlds to restore our entire energy of life to the original agendas of the Divine Families. We will do that by modeling those agendas, clearing Outsiders, rooting out the "cause" insertions from which cultures of domination and usury have grown.

Leaderful: we each have our unique view of the world, experience, skill set and guidance. We participate as joint creators within this work and bring respect and deep listening.

Congruency; the value that we set are the core of our work. We are each responsible to gather with congruency to those values and capable to use our knowledge and skills to bring us back into congruency when we are triggered. We do not work if we are not congruent.

Integrity: we make a commitment with our best intention to fulfill on it. As soon as we realize we cannot, we reach out to change the agreement.

Emerging: We recognize that there is an energy field of intelligence that is calling us to this work. We are partners within that field and watch the emerging possibilities rather than superimpose our ideas on the field.

*I intend that this work expand and grow more powerfully in collapsing the time required to restore the Divine Harmonic of Home and to manifest throughout the entire Web of Life.*

## The Steps

1. Identify a manifestation that is contrary to Good and Benefit
2. Go into your sacred, protected time and space
3. Call in those in the unseen who match your criteria of qualities
4. The intention is to be shown a time in the past when the idea/concept was inserted, activated, expanded from which this form grew.
5. Use a self-hypnosis process to go back to the count of 3.
6. On 3 look with your imagination to see what you are wearing and what is going on around you.
7. Find the discussion underway for the insertion of the idea/chip/formula
8. Listen until you are clear as to what is being proposed and then “freeze-frame” that activity. If you would like, you can ask to know more about those planning, i.e. how many, outsiders, how many years ago.
9. Going to a time before the insertion when humanity was experiencing their Divine essence, note the feelings, creations, interactions.
10. Now, go back to the “freeze-framed” group and call in those prepared to help remove, i.e. PTO, Galactic Council Collectives, Empowered souls of Female mission
11. You are the point of power being in a physical body, declare to those prepared, “This activity, intention, idea is NOT Acceptable, has no power or right to be here. Contain the outsider’s energies, retract from all time and space, neutralize, and remove the entire back to their homes of origin.”
12. Hold space until the sense on completion
13. Go back in time to the group experiencing their divine essence and let a Reality Statement emerge to describe this reality.
14. Come back to your body in your sacred space, write in your journal; experience, issue, and the Reality Statement to bring the divine expression forward. (what will the present “now” look like without the insertion?)

- Entrenched turncoats, human beings supporting the domination agenda
- Dug in Outsider energies within leaders
- Solidified systems formed from Outsider agendas
- Dogma, concepts that remain in group mind and manifested in our world
- Specific cultures and systems that diminish and harm

## Resources

### *Processes:*

#### *Self-preparation:*

- Complete and anchor these Reality Statements with the Reality Shift protocol:
  - a. "My spiritual teachers and guides have the qualities of ....."
  - b. "I am safe, protected, and guided as I bring my past spiritual gifts into my present life."
  - c. Use the time line process to travel to those past lives that hold those gifts.
- Prepare a space in which you will work. It will hold the energy of those qualities, boundaries of the Sacred Ground Space, be cocooned with the Hazmat suit field of extraction and protection, and any other decrees you chose.
- Invite one or more individuals whom you trust, either in body or in spirit, to work with you in this mission.
- Reality Statement. The tool you can use to redesign and expand life. It works in the 64 dimensions of our Divine Family's energy regions.
- Creating the Statement: Describe your ideal world, change, or goal as if you are experiencing it now. This is similar to an affirmation using personal and present tense, i.e., "I now am...." You are choosing your next experience and in the process old patterns can be transformed.

#### *Reality Shift: There are six steps:*

- Step 1. Speak your Statement
- Step 2. Say to your Spiritual team, "Please align every aspect of my consciousness and the consciousness and all to whom I am loving connected to this chosen reality and experience." pause and breath
- Step 3. Next, ask your Spiritual team, to "TAG, Transform and Remove every energy imprint that would sabotage or prevent this reality and experience, whether the beginning was, Galactic, Group, Genetic, Personal, Inherited, Contractual, Outsider or Other created." pause and breath
- Step 4. Ask your Spiritual team, "Create the codes for the Highest Expression of this Reality and download the program into the 1st Dimension of my Earth fields

---

and Activate its resonance into the entire 64 dimensional energy fields our Galactic Families." pause and breath, "It is so!"

- Step 5. Now that you, as the commander for your life, have chosen a change, a new possibility, it is up to you to feed it. You can begin by taking just 5 minutes periodically, but especially as you drift into sleep, to imagine yourself in this Reality and FEEL all aspects of it. How does it feel in your body? What colors and shapes are there? Who is in that Reality with you? Build the fire! and here is a video that can help.
- Step 6. Remain aware of any contrary thoughts, feelings, or actions and use your tools, such as TAG and Transform, to declare that these imprints for such emerging forms be cleared and healed.

*A Realty Shift can be repeated often. There is an expansive audio guide for the Shift on the website.*

*Website: <https://shiddea.weebly.com/awakening.html>*

- Audios guidance for time travel, divine family connections, garden of eden reframe, TAG session, Reality Shift process and more being added, are on website

## **Agreements for the Shiddea Working Circle:**

- *We will begin on time. Come prepared to share your experiences, ideas and questions and to listen deeply to others.*
- *If you would like to have a conversation with another member of the circle, you can use the "chat" icon to speak directly with them and share contact information.*
- *If you find yourself triggered by ideas or actions within the circle, realize that you are being given a gift. This discomfort is from your personal constructs. Note your reaction in your journal. Then, use your tools to bring yourself into the balance of Good Mind as the circle continues.*
- *After the circle is completed, you can revisit your notes, your reactions and do your deeper work.*

## Glossary:

*Shiddea* - the name given this mission in the beginning, the 7th world

*Galactic worlds* - the energy regions the Divine Families have extended in their adventure from Home. There are 8 of 8 dimensions, Earth being the 8th.

*Divine Families* - the collectives of conscious beings who extended from their Homes with a specific agenda of Good. There are 7 family collectives within Earth mission.

*Galactic Council Collective* - The extensive group of Galactic regions who have come together as a collective in this work to take back their regions for experiences of Good.

*PTO team* - a group of three types of skills who reached out to help in this mission. Those skills are: the ability to discern and remove Outsider energies, the ability to contain those energies, and the ability to restore the field to wholeness.

*TAG team Collective* - this collective began forming in the late 1990's. The cornerstone was those with the ability to go to the "cause" of manifested form and transform it. Many other types of healing models with foundations in the unseen have come into collaboration. It is a model of the integrated approach to healing and change.

*Good Mind*- A concept from the Iroquois Nation. There are agreed upon values that will foundation actions within the Nation. Each individual, from child to elder, holds themselves responsible to monitor their energy bodies to be congruent to those values. If they are out of "Good Mind", they withdraw from interactions, use their skills, and support to do what is necessary to restore their "Good Mind" state.
